

MES Family Update - October 5

Happy Monday MES Families,

We hope that everyone enjoyed the beautiful fall weekend.

We wanted to reach out to our MES families to share that Mrs. Kelley is currently quarantined at home following school and Chatham Health protocol due to a family member who has tested positive.

Based on exposure timelines and a subsequent negative test, there was no exposure to any children or staff at school. Kim will remain quarantined following guidance from Chatham Health District with a projected return date of next Thursday, October 15th.

Although Kim will be working from home during her quarantine, emailing both of us if you need anything will be the best way to get a response as soon as possible. We are in communication throughout the school day.

Have a terrific night,
Dan & Kim
