

CSDE Addendum 5 – ASYMPTOMATIC Decision Tree

One or more Symptoms of COVID-19?

fever (temp 100.4 F and above), chills, uncontrolled new cough, shortness of breath, difficulty breathing, loss of taste or smell

Two or more nonspecific symptoms of COVID-19?

muscle or body aches, sore throat, nausea, vomiting, diarrhea, headache, fatigue, congestion, runny nose

**PCR or Antigen^c
Test Results**

NOT TESTED
See testing recommendation above.
Daily monitoring for symptoms through Day 14.
If symptoms develop, isolate immediately and get tested

POSITIVE
Isolate ^A x 10 days

NEGATIVE
Remain in school if asymptomatic.
Daily monitoring for symptoms through Day 14.
If symptoms develop isolate and get tested.

**PCR or Antigen^c
Test Results**

NOT TESTED
Quarantine x 10d^B
Daily monitoring for symptoms through Day 14.
If symptoms develop isolate and get tested.

POSITIVE
Isolate ^A x 10d

NEGATIVE
Quarantine x 10d ^B
Daily monitoring for symptoms through Day 14
If symptoms develop isolate and get tested.

If symptoms develop, isolate immediately and consult with HCP

Close contact: anyone within 6 ft for 15 min or more (cumulative over a 24 hrs), indoors or outdoors regardless of masks. For students (not teachers or others) in a classroom setting only, if both parties wore masks for entire duration of their contact, a close contact is a student within 3 ft for 15 min or more (cumulative over a 24 hrs).

^A Isolate for at least 10 days since the onset of symptoms and until at least 24 hours have passed with no fever (without fever-reducing meds) and improvement in other symptoms

^B If school district policy permits exit from quarantine after a) 10 days: continue to monitor symptoms days 11-14 and if symptoms develop, isolate immediately and contact HCP OR b) 7 days (with a documented negative test result taken no earlier than day 5): continue to monitor symptoms days 8-14 and if symptoms develop, isolate immediately and contact HCP. Chatham Health District recommends against the use of at-home tests to shorten quarantine.

^C A negative antigen test in a person with symptoms consistent with COVID-19 or a close contact without symptoms should be followed up with a PCR test.

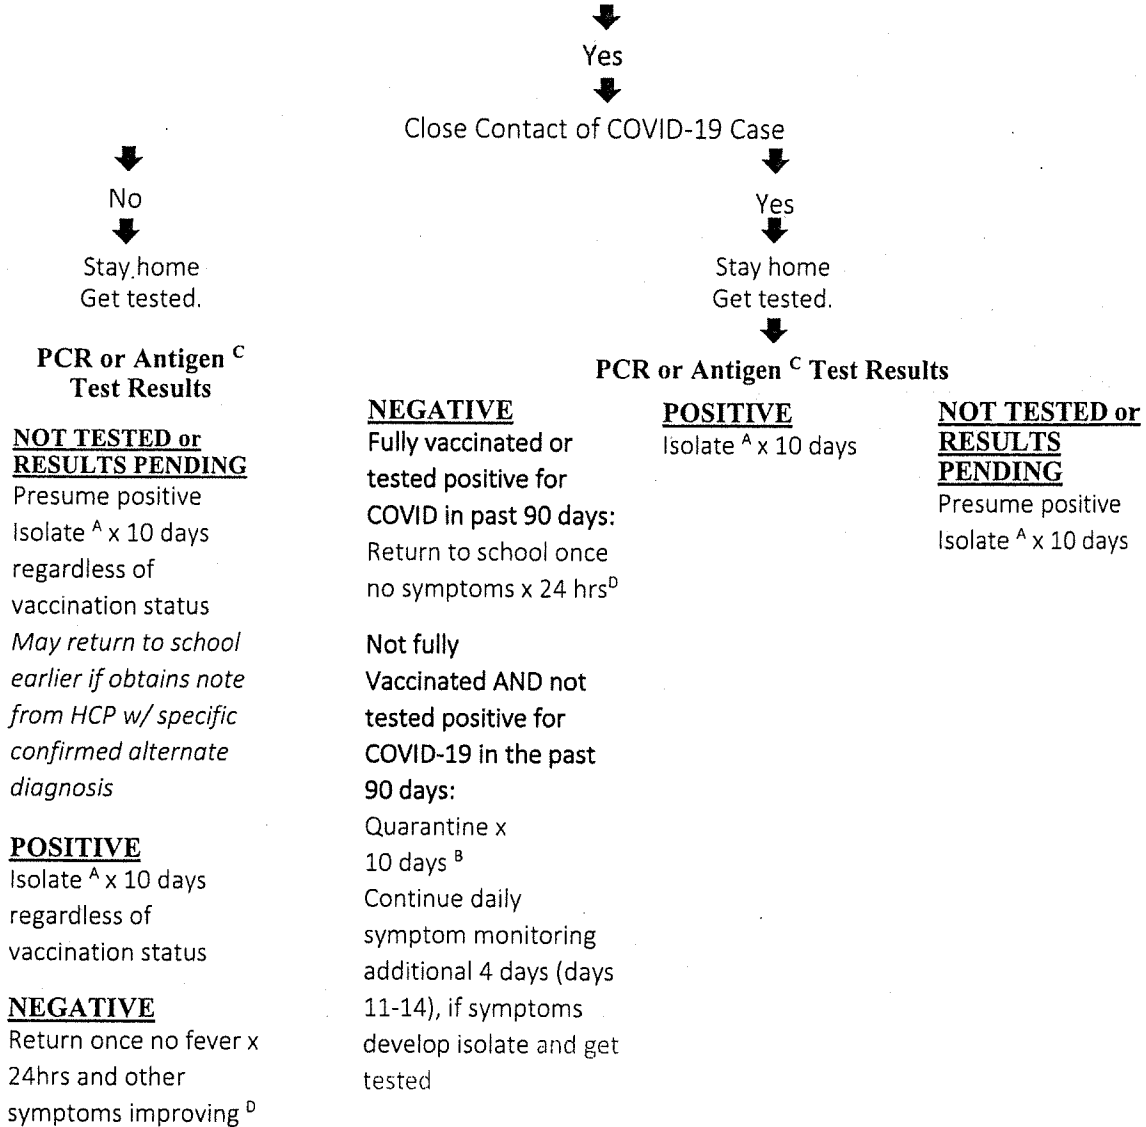

CSDE Addendum 5 – SYMPTOMATIC Decision Tree

One or more Symptoms of COVID-19?

fever (temp 100.4 F and above), chills, uncontrolled new cough, shortness of breath, difficulty breathing, loss of taste or smell

Two or more nonspecific symptoms of COVID-19?

muscle or body aches, sore throat, nausea, vomiting, diarrhea, headache, fatigue, congestion, runny nose

Close contact: anyone within 6 ft for 15 min or more (cumulative over a 24 hrs), indoors or outdoors regardless of masks. For students (not teachers or others) in a classroom setting only, if both parties wore masks for entire duration of their contact, a close contact is a student within 3 ft for 15 min or more (cumulative over a 24 hrs).

^A Isolate for at least 10 days since the onset of symptoms **and** until at least 24 hours have passed with no fever (without fever-reducing meds) **and** improvement in other symptoms

^B If school district policy permits exit from quarantine after **a) 10 days:** continue to monitor symptoms days 11-14 and if symptoms develop, isolate immediately and contact HCP OR **b) 7 days** (with a documented negative test result taken no earlier than day 5); continue to monitor symptoms days 8-14 and if symptoms develop, isolate immediately and contact HCP. *Chatham Health District recommends against the use of at-home tests to shorten quarantine.*

^C A negative antigen test in a person with symptoms consistent with COVID-19 or a close contact without symptoms should be followed up with a PCR test.

^D At home tests should not be used to release symptomatic individuals from isolation.
